Local: 879.0057 & Toll Free: 1.800.401.6640

Gary DeHaan: Please keep Gary in your prayers that he will gain strength in his legs and have relief from pain in his back. He is also experiencing low heart rate and high blood pressure. We pray that his health issues may be resolved.

Tom Eisen: Please keep Tom in your prayers as he awaits back surgery scheduled for March 16. Pray for calmness, peace of mind and reduced anxiety.

Marian Johnson: Please keep Marian in your prayers as she has been transferred from Zeeland Hospital to Heritage Nursing Home for physical therapy.

Henry & Anna Meppelink: We join with Henry & Anna in praying that the PET Scan that was done yesterday (Saturday) will show good results.

Pep Nagelkirk: Please keep Pep in your prayers as he has experienced failing health the last few days. We pray for Pep & Shirley as they walk this journey; and give thanks that they are in the same care center.

Kristin Sterk: Please keep Kristin in your prayers as she is having adverse effects from her last chemo treatment, resulting in blood transfusions three days this past week due to low blood counts. Pray that her counts go up. Pray also for Dan & Kristin that their spirits will be lifted during this long road.

Rog & Linda VanDyke: Please keep Rog & Linda in your prayers. Rog is at Spectrum/Butterworth after experiencing a fall from a loft in his barn. He suffered a fractured skull and concussion, as well as 11 out of 12 ribs cracked. We pray for patience and complete healing. Rog & Linda have been regular worshippers with us for some time.

Marianne Vos: We are thankful that Marianne is making progress with physical therapy after hip surgery. We pray that her pain will diminish.

Luke Worley (9 year old son of Dee Worley): Luke was scheduled for an MRI this past Thursday. He was admitted to Helen DeVos Hospital after complications during his MRI (the medication made him stop breathing). Luke was stabilized and kept for observation, but was able to return home Friday afternoon. The doctors are treating him with antibiotics for a bacterial inner ear infection/mastitis, which means it is in/on the bone behind his left ear. Lab work will be repeated once the antibiotics are done. No seizures were seen on his EEG. Pray that the antibiotics will relieve the infection.
